INTERNATIONAL FOOD AND DRINK EXHIBITION

The Foreign Agricultural Service will sponsor a U.S. Pavilion at the 5th Biennial International Food and Drink Exhibition (IFE '87), February 1-5, 1987, in London, England.

IFE '87 will provide the opportunity for 1,200 firms and organizations from 42 countries to exhibit their product lines to some 43,000 trade visitors. Buyers from Europe, the Persian Gulf States, North Africa, and Asia representing import, wholesale, retail, hotel/restaurant, and institutional sectors are expected.

The products identified as having good potential for the markets represented at IFE '87 include: frozen food; wine and beer; delicatessen and fine food items; beverages; snack and dietetic products (e.g. syrups, sauces, cookies, snack bars and crackers); health foods; dried fruits; fresh fruit; and new products and/or processes.

The U.S. National Pavilion will feature 25 booths at IFE '87. U.S. exhibitors will receive a variety of services including assistance in booth preparation, product shipping, customs clearance, and pre-show product publicity. For details concerning participation in IFE '87, please call Willis Collie, AIMS Program, Foreign Agricultural Service, (202) 447-7103.

EXPORT OPPORTUNITIES FOR FOOD PRODUCTS

With the recent decline in the value of the dollar on international markets, now may be the time to consider introducing your firm's food products overseas.

The Foreign Agricultural Service (FAS) offers a cost-effective service for U.S. firms to explore foreign markets. The FAS organizes U.S. National Pavilions in major International Trade Shows throughout the world. A typical U.S. Pavilion includes amenities such as individual booths, a trade lounge, advance public relations, product shipment and customs clearance for the show. The trade leads and sales are up to you!

Following is a list of international shows through 1988 of interest to exporters. For more information, contact: Export Programs Division, Room 4944-S, Washington, DC 20250, (202) 447-3031.

TECHNICAL OFFICE

Notice of Foreign Proposals Concerning Standards in Agriculture. As required of all signatories to the GATT Standards Code, the following notification of foreign proposed standards-related rules has been provided for the information and comment of interested agencies and firms. The Technical Office invites inquiries from anyone who believes that any of the proposed regulations notified under this heading could cause a trade problem. From time to time we also receive information through our embassies in foreign countries, as is the case this week. Requests for copies or questions can be referred to Carolyn Fillmore Wilson, USDA Technical Office, Building 1072, BARC - East, Beltsville, MD. 20705; or telephone (301) 344-2651. After reviewing a particular proposal, anyone interested in commenting on it should include the TBT Notification Number in their communication.

European Economic Community - TBT Notification 86.85 The Commisson of the European Communities has announced a Council Regulation (product covered - imported agricultural products) on the conditions governing imports of agricultrual products originating in their countries following the accident at the Chernobyl power-station. The regulation sets maximum permitted levels of accumulated radioactivity in terms of caesium-134 and -137 in imported foodstuffs at 370 BQ/KG for milk and for foodstuffs intended for the special feeding of infants; and at 600 BQ/KG for all other products concerned. The objective and rationale for the regulation is consumer protection.

European Economic Community - TBT Notification 86.87 The Commission of the European Communities has announced an amendment to the Commission proposals (product covered - veterinary medicinal products) in favour of high-technology medicinal products, particularly those derived from biotechnology. The proposal would amend the technical requirements for the analytical testing of human and veterinary medicinal products. The objective and rationale for the proposal is to maintain Community test requirements in line with technical and scientific progress. Final date for comments is "as soon as possible."

European Economic Community - TBT Notification 86.89 The Commission of the European Communities has announced a proposal for a Council Directive (product covered - food additives) concerning food additives authorized for use in foodstuffs intended for human consumption. The proposal outlines the way in which the Commission would see the development of future legislation on food additives. The objective and rationale for the proposal is health protection. Final date for comments on the proposal is October 1, 1986.

European Economic Community - TBT Notification 86.90 The Commission of the European Communities has announced a proposal (product covered - foodstuffs) for a Council Directive amending a previous Directive on the approximation of laws of the member states relating to the labelling, presentation and advertising of foodstuffs for sale to the ultimate consumer. The proposal updates the previous Directive on the subject. The objective and rationale for the proposal is consumer protection. Final date for comments on the proposal is October 1, 1986.

UNITED STATES DEPARTMENT OF AGRICULTURE

WASHINGTON, D.C.
PERMIT No. G-262

If your address should be changed _____ PRINT OR TYPE the new address, including ZIP CODE and return the whole sheet and/or envelope to:

FOREIGN AGRICULTURAL SERVICE, Room 4645-S.
U.S. Department of Agriculture
Washington, D.C. 20250

European Economic Community - TBT Notification 86.91 The Commission of the European Communities has announced a proposal (product covered - foodstuffs) for a Council Directive on the approximation of laws of the member states relating to the materials and articles intended to come into contact with foodstuffs. The proposal amends and at the same time codifies a previous Directive on the same subject. The objective and rationale for the proposal is consumer protection. Final date for comments on the proposal is October 1, 1986.

European Economic Community - TBT Notification 86.92 The Commission of the European Communities has announced a proposal (product covered - foodstuffs) for a Council Directive on the approximation of laws of the member states relating to foodstuffs intended for particular nutritional uses. The proposal amends and at the same time codifies a previous Directive on the same subject. The objective and rationale for the proposal is consumer protection. Final date for comments on the proposal is October 1, 1986.

Switzerland - The Technical Office recently received copies of the new Swiss foodstuffs and food additives ordinance which came into effect on July 1, 1986. We will be happy to share it with interested exporters, one drawback - it is in French.

Call (800) 327-2467 or in Washington, DC, (202) 447-7103.

MARKETING OPPORTUNITY FOR FRUITS AND VEGETABLES

The Singapore Fruits and Vegetables Importers and Exporters Association is sponsoring the FRUIT & GREENS '86 Exhibition, to be held in Singapore October 23-26 this year at the Mandarin Hotel in Singapore. The exhibition is the first of its kind in the Southeast Asian region and will feature fruit and vegetables (fresh, dried, preserved, canned) nuts and seeds, juices, natural products, flowers, and flora.

Singapore's strategic location provides an excellent gateway to the Asian Pacific region plus the opportunities to penetrate new markets in the region. Further, its excellent sea port facilities and up-to-date equipment makes it an ideal transshipment and distribution center.

The South East Asian market for fruits and vegetables is large. In 1983, Singapore imported $107 million worth of fresh fruit and $50 million worth of fresh vegetables. In the same year, Hong Kong imported $168 million worth of fresh fruit and $96 million worth of vegetables.

For more information on this opportunity, including an application for space, contact:

INTERNATIONAL FOOD AND DRINK EXHIBITION

The Foreign Agricultural Service will sponsor a U.S. Pavilion at the 5th Biennial International Food and Drink Exhibition (IFE '87), February 1-5, 1987, in London, England.

IFE '87 will provide the opportunity for 1,200 firms and organizations from 42 countries to exhibit their product lines to some 43,000 trade visitors. Buyers from Europe, the Persian Gulf States, North Africa, and Asia representing import, wholesale, retail, hotel/restaurant, and institutional sectors are expected.

The products identified as having good potential for the markets represented at IFE '87 include: frozen food; wine and beer; delicatessen and fine food items; beverages; snack and dietetic products (e.g. syrups, sauces, cookies, snack bars and crackers); health foods; dried fruits; fresh fruit; and new products and/or processes.

The U.S. National Pavilion will feature 25 booths at IFE '87. U.S. exhibitors will receive a variety of services including assistance in booth preparation, product shipping, customs clearance, and pre-show product publicity. For details concerning participation in IFE '87, please call Willis Collie, AIMS Program, Foreign Agricultural Service, (800) 327-2467 or in Washington, DC, (202) 447-7103.

Marketing Announcements

Marketing briefs are periodically prepared by the Agricultural Trade Offices. They serve as short overviews of individual commodity markets. The guides are designed for trade visitors. The most recent marketing briefs available are as follows:

Market Briefs by Country/Subject
